### Customer Problem Statement Template:

In the agricultural field, the main motive of farmers is to produce the crops in larger volume and healthy manner. But the major problem arises, which was diseases in plants. The bacteria and fungus affect the plants. It causes enormous amount of loss for farmers and affect the farmers economy too. To prevent these loss, the deep learning techniques is used to identify the disease and suggest an accurate fertilizers.

Problem statement	I am	I'm trying to	But	Because	Which makes me feel
PS-1	a Farmer who wants to yield the crop in large volume.	Yield the crops in healthy and organic way.	The crops affected by some bacterial disease which I unaware of those disease and it affects the total production	Of lack of prevention and unaware of the disease	Too frustated
